### Fleet Graphic Installations

To maintain the Matched Component System (MCS) Warranty it is important to have the vehicle graphics installed properly. The following reviews a way we can help have your graphics installed and maintain your 3M™ MCS Warranty.

**Certified Referral Process:** This is well suited for smaller fleet installations. It can be used to install small fleets of 4 or less trucks. Once the graphics order is placed, we would refer you to a regional certified installer. They will be a 3M™ certified installer or a member of the United Application Standards Group (USAG)\* or professional Decal Application Association, (PDAA).

**\*USAG and PDAA Installers:** *The United Application Standards Group and Professional Decal Application Association are both groups of professional graphics installation contractors. 3M™ has made the special provisions for both groups in the 3M™ Matched Component System warranty that are unmatched by anyone else in the industry.*

**Terms are 50% down on order and final on shipping or net 15 with approved credit, delivery dates will be set and confirmed upon receipt of signed off proof. Scotchprint® Graphics are FOB Toledo, Ohio and do not include sales tax. Shipment will be made via UPS unless specified on order.**
